CPY250 Surface Mounted Trim Kit

Trim Kit with Luminaire fitted (luminaire not included)

Diagram:

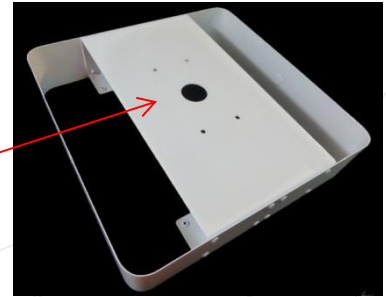

**Not to scale*

Installation Instructions:

- 1) *Using skirt as a guide, mark surface being mounted to and drill holes as necessary. Mount skirt to surface (screws not supplied).*

This side faces the desired surface.

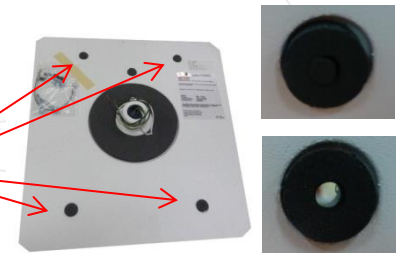

- 2) *Whether rear or side entry, run input cable into void and fit off plug provided.*

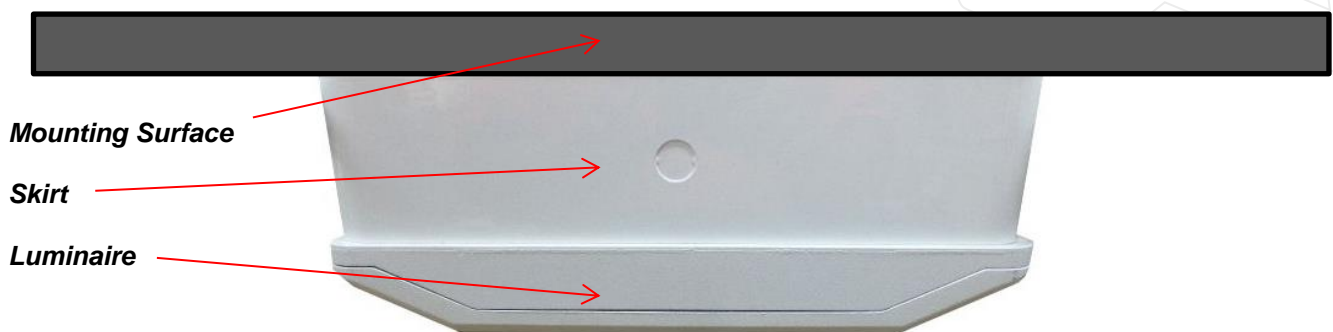

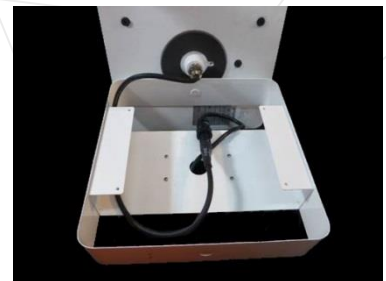

If using side entry, a gland is required (supplied by others).

- 3) *On the underside of the luminaire, push out the centres of the 4 x seals (pictured).*

- 4) *Connect lead and attach luminaire to skirt using 4 x M5x20mm stainless steel screws and washers (supplied).*
